

PRE AND DRAFT BAR PHASES
SUMMARY OF THE PUBLIC PARTICIPATION PROCESS

This section of the report is included in compliance with the Regulations. Public participation is an integral part of the EIA process, and affords potentially interested and potentially affected parties (I&APs) an opportunity to participate in the EIA process, or to comment on any aspect of the development proposals.

Other relevant considerations regarding the public participation process being undertaken for this project are that:

- The public participation process being undertaken for this project complies with the requirements of the Regulations.
- The description of the public participation process included in sections below itemises the steps and actions undertaken.

Adverts will be placed in the following newspaper:

- Swartland Gazette on 11 March 2025

Leerders van die Laerskool Swartland het Donderdagaand ná 'n rugbyoefening op hul A-veld byeengekom en hul hare laat afskeer ter ondersteuning van 'n geliefde onderwyser, Dirk Malan (60), by wie kanker onlangs gedagnoseer is.

Leerders 'veg saam'

'n Mini-shavathon, wat die afgelope Donderdagaand (6 Maart) op die Laerskool Swartland se rugbyveld ter ondersteuning van 'n geliefde onderwyser en rugbyfrigter plaasgevind het, het hoenderveis-omblikke en trane opgelewer. Tog was breek glimlagte ook aan die orde van die dag toe leerders hul gunsteling "meneer" weer kon sien en met die woorde "We will fight with you" op die veld verwelkom het.

Dirk Malan (60), wat vir langer as 25 jaar by LSS as

onderwyser betrokke is, is behoorlik verras deur die byeenkoms waar die gr. 7-rugbyseuns kort ná 'n oefening nie gekrummer het om hul hare te laat waai nadat kanker onlangs by hom gedagnoseer is nie. Seuns van alle ouderdomme, 'n pa en selfs onderwysers het ook hul hare laat afskeer om só te wys hulle veg saam met hom.

'n Emosionele dog dankbare Malan het die seuns vir hul ondersteuning bedank en met hulle gedeel hoe baie die geleentheid vir hom beteken het.

Leerders verwelkom hul geliefde onderwyser, Dirk Malan (60), by 'n mini-shavathon ter ondersteuning aan hom wat tans kankerbehandeling ondergaan.

VLV terug in kleure

Die tweede VLV-byeekoms, aangebied deur die Malmesbury-tak by Cafe Myrtledeene, het die afgelope Woensdag (5 Februarie) plaasgevind waartydens Uys van der Westhuijzen, betrokke by landelike veiligheid op nasionale vlak by Agri SA en die voorsitter van Landelike Veiligheid in die Wes-Kaap, die kollig op veilig, held geskyn het. Hy het na die onderwerp as ongewild verwys, omdat mense neig om vingers te wys sodra iets gebeur.

Van links staan Ohna Nel, die spreker Uys van der Westhuijzen en Magda Potgieter gedurende die VLV se tweede byeenkoms van die jaar, waartydens die onderwerp van landelike veiligheid en hoe om jouself te bevellig, bespreek is.

Volgens hom sluit landelike veiligheid nie slegs plase in nie, maar ook dorpe in landelike omgewings. "Dit gaan nie hier oor ons nie – dit gaan oor ons nageslag. Ons is hier om iets te begin. Ons moet kyk na die werklikhede en wat verkeerd gegaan het en hoe ons dit gaan regmaak," meen hy.

Hy sê die werklikheid is dat to min polisievoertuie of voldoende sigbare polisieëre na gelang van noodsaaklikheid beskikbaar is. "Daar is nie ekstra lede vir sigbare polisieëre op die platteland nie. Dit is wat dit is, maar dit help nie om 'n vinger te wys nie. Ons moet na onself begin omsien, eienaarskap neem en betrokke raak," voeg Van der Westhuijzen by.

Dwelmmisbruik, werkloosheid en misdaad is aan die toeneem en maatskappye is besig om familieplase oor te neem. "Hier is bendeoorloë in Wesbank," sê hy.

Volgens hom is dit belangrik

om te besef dat misdaad vir 'n rede gebeur. Van der Westhuijzen het verder uitgebrei oor faktore wat voornemende misdadigers in ag neem wanneer hulle by 'n perseel wil inkom.

"Misdadigers gaan vir seker by 'n huis wat die minste uitdaging bied, inbreek. Aanloklike teikens soos byvoorbeeld 'n huis waar maklike toegang verky kan word of waar hulle weet baie geld is, moet in ag geneem word." Gewilde tye vir inbrekers is veral tussen 18:00 en vroegoggend wanneer inwoners ontspanne is, noem hy. "Tendense soos watter tye waar die meeste misdade voorkom en hoe kom dit gebeur, is belangrik om met die plaaslike gemeenskappe gekommunikeer te word."

Volgens hom is 97% misdadigers onder meer gewapen. Die gemiddelde ouderdom van 'n misdadiger is tussen 19 en 26 jaar oud. Sowat 30% van inbrekers sal moord pleeg. 17% van inbrekers is buitelanders en 90% van misdadigers is werkloos.

Van der Westhuijzen het verskeie faktore uitgelig oor hoe inwoners hulself kan beveilig en sê mense behoort daartoe in staat te wees om alarm te maak wanneer iets gebeur.

"Dit help nie jy het alles reg, maar hulle weet nie jy is binne jou huis in gevaar nie. As jy nie iets kan aktiveer nie, gaan jy nie reaksie kry nie. Indien jy wel 'n alarm het wat geaktiveer word, maak seker jy het 'n veilige plek in jou huis totdat hulp opdaag."

Henrick de Kock, 'n boer van die plaas De Grendel in Malmesbury, het gedurende die Malmesbury VLV-tak se eerste byeenkoms in Februarie by Café Myrtledeene gepraat oor die gebruik van 'n hommeltuig in die landbou, hoe tegnologie die landbou verander het en veral hoe daëry landbouhommeltuig boerdery verander en meer volhoubaar maak deur produesente te help om reer doeltreffend te wees, beter besluite te neem en uiteindelik gesonder gewasse te produseer. Die hommeltuig is toegerus met hoë-resolusie-kameras, sensore en ander gevorderde tegnologie wat gewasgesondheid kan monitor, lande kan meet en selfs kunsmis en plaagdoders akkuraat kan toedien. Sommige modelle is spesifiek ontwerp vir bespuiting en saai. Lede van die plaaslike tak het boonop kleurvul aantrekkomelike om die nuwe tema van die jaar, "Kleur jou lewe/Colour your life", bekend te stel.

(30 DAYS REGISTRATION PERIOD EXCLUDING PUBLIC HOLIDAYS FROM 11 MARCH TO 11 APRIL 2025)
APPLICATION IN TERMS OF THE NEMA EIA REGULATIONS, 2014 (AS AMENDED) AND NATIONAL WATER ACT FOR THE PROPOSED ESTABLISHMENT OF THE PHASE 2 DARLING HOUSING DEVELOPMENT AND ASSOCIATED INFRASTRUCTURE ON A PORTION OF THE REMAINDER OF ERF NO. 551, DARLING.
DEAD&P REFERENCE NUMBER: 16/93/67/1/F5/S/2034/25

Notice of a Public Participation Process (PPP) is hereby given in terms of the Environmental Impact Assessment (EIA) Regulations (2014, as amended) made under Section 24 (5) and 44 of the National Environmental Management Act (NEMA), Act No. 107 of 1998 (as amended) and National Water Act (30 days registration and 30 days availability of report to comment = National Water Act 60 days requirement). This notice also serves to inform the public that a draft Basic Assessment process will be followed and that the draft reports and its Appendices for the Application will be available for public comment on our website: <https://enviro-eap.co.za/public-participation/>. When landing on the Public Participation Page on the website please scroll down until you locate the project title as indicated above (valid for full duration of 30 day commenting period). **TAKE NOTE THIS WILL ONLY BE AVAILABLE ON THE WEBSITE WHEN YOU AS A REGISTERED INTERESTED AND AFFECTED PARTY GET NOTIFICATION FROM ENVIRO-EAP THAT IT IS AVAILABLE.** Notice is given of the public participation process commenced by Swartland Municipality. The proposal entails the establishment of the Phase 2 housing development on a portion of the Remainder of Erf No. 551, Darling comprising the following: Approximately 230 Residential 2 erven (single); Approximately 72 Residential 2 erven (walk ups); 25 Residential Zone 1 erven (GAP); 2 Authority zone erven; 1 Community zone 1 (crèche); 1 Community zone 1 (school); 1 Community zone 2 erf (church) erven; 2 Open Space 1 erven, and 1 Transport zone 2 erf.

Location: Off existing Madeliefie, Malva, Angeller, Sonneblom and Oridge Streets

Listed Activities: The application process for Environmental Authorization will follow a Basic Environmental Impact Assessment process. The proposed development constitutes Listed Activities 9, 12, 24, 27 and 28 of Listing Notice 1 of the EIA Regulations, 2014 (as amended) and Listed Activities 4 and 12 of Listing Notice 3 of the EIA Regulations, 2014 (as amended).

Exemption: No application for any exemption is sought.

Opportunity to participate: Interested and Affected Parties are invited to register interest for the respective application within the process, or provide written comments to Enviro-EAP within 30 days of this notice (excluding public holidays). The project title, your full name, contact details, plus indication of any direct business, financial, personal or other interest you may have in this application must please be provided and fully described. Sections 11 and 18 of POPIA, 2013 (Act No. 14 of 2013). The personal information and comments provided will be included in reports to be submitted to the Competent Authority to enable informed decision-making. Also, if you choose to register as an I&AP your personal information will be made available to an appellant in the case of an appeal, and an applicant/EIA-independent person for purposes of being informed and given access to an audit report. This information may be made available in terms of section 11(1)(c) and 11(1)(d) of the POPIA, without requiring consent.

Subject: Direct Neighbours Notice - PUBLIC PARTICIPATION PROCESS FOR PROPOSED THE PHASE 2 DARLING HOUSING DEVELOPMENT AND ASSOCIATED INFRASTRUCTURE ON A PORTION OF THE REMAINDER OF ERF NO.551, DARLING. DEA&DP REFERENCE NUMBER: 16/3/3/6/7/1/F5/5/2034/25

Good day

You receive this notice as an identified landowner of property directly bordering unto the proposed application

30 DAYS EXCLUDING PUBLIC HOLIDAYS REGISTRATION PERIOD FROM DATE NOTICE SENT 17 MARCH 2026 AND 30 DAYS STARTING 18 MARCH 2026 ENDING 20 APRIL 2026

PUBLIC PARTICIPATION PROCESS

APPLICATION IN TERMS OF THE NEMA EIA REGULATIONS, 2014 (AS AMENDED) AND NATIONAL WATER ACT FOR THE PROPOSED ESTABLISHMENT OF THE PHASE 2 DARLING HOUSING DEVELOPMENT AND ASSOCIATED INFRASTRUCTURE ON A PORTION OF THE REMAINDER OF ERF NO.551, DARLING.

DEA&DP REFERENCE NUMBER: 16/3/3/6/7/1/F5/5/2034/25

Notice of a Public Participation Process (PPP) is hereby given in terms of the Environmental Impact Assessment (EIA) Regulations (2014, as amended) made under Section 24 (5) and 44 of the National Environmental Management Act (NEMA), Act No. 107 of 1998 (as amended) and National Water Act (**30 days registration and 30 days availability of report to comment = National Water Act 60 days requirement**). This notice also serves to Inform the public that a draft Basic Assessment process will be followed and that the draft reports and its Appendixes for the Application will be available for public comment on our website: <https://enviro-eap.co.za/public-participation/>. When landing on the Public Participation Page on the website please scroll down until you locate the project title as indicated above (valid for full duration of 30 day commenting period). **TAKE NOTE THIS WILL ONLY BE AVAILABLE ON THE WEBSITE WHEN YOU AS A REGISTERED INTERESTED AND AFFECTED PARTY GET NOTIFICATION FROM ENVIRO-EAP THAT IT IS AVAILABLE.** Notice is given of the public participation process commenced by Swartland Municipality. The proposal entails the establishment of the Phase 2 housing development on a portion of the Remainder of Erf No. 551, Darling comprising the following: Approximately 290 Residential 2 erven (single); Approximately 72 Residential 2 erven (walk ups); 25 Residential Zone 1 erven (GAP); 2 Authority zone erven; 1 Community zone 1 (cr?che); 1 Community zone 1 (school); 1 Community zone 2 erf (church) erven; 2 Open Space 1 erven; and 1 Transport zone 2 erf.

Location: Off existing Madeliefie, Malva, Angelier, Sonneblom and Oridge Streets

Listed Activities: The application process for Environmental Authorization will follow a Basic Environmental Impact Assessment process. The proposed development constitutes Listed Activities 9, 12, 24, 27 and 28 of Listing Notice 1 of the EIA Regulations, 2014 (as amended) and Listed Activities 4 and 12 of Listing Notice 3 of the EIA Regulations, 2014 (as amended).

Exemption: No application for any exemption is sought.

Opportunity to participate: Interested and Affected Parties are invited to register interest for the respective application within the process, or provide written comments to Enviro-EAP within 30 days of this notice (excluding public holidays). The project title, your full name, contact details, plus indication of any direct business, financial, personal or other interest you may have in this application must please be provided and fully described. **Sections 11 and 18 of POPI Act, 2013 (Act No.14 of 2013):** The personal information and comments provided will be included in reports to be submitted to the Competent Authority to enable informed decision-making. Also, if you choose to register as an I&AP your personal information will be made available to an appellant in the case of an appeal, and an applicant/EAP/independent person for purposes of being informed and given access to an audit report. This information may be made available in terms of section 11(1)(c) and 11(1)(d) of the POPIA, without requiring consent. **The landowners of neighbouring properties (as notified) must please ensure that all persons residing on their land are informed of the application and opportunity to register.**

Under the Protection of Personal Information Act, 04 of 2013 ("POPIA"), we have a general legal duty to protect information we process. Enviro-EAP (Pty) Ltd is committed to ensuring the security and protection of the personal information processed by the organization, and to provide a compliant and consistent approach to data protection. The information contained in this email and any attachments thereto may be privileged or confidential and are only intended for the exclusive use and attention of the addressed recipient. If you have received this email by mistake, please delete same and advise the sender immediately. Should you have any questions related to our POPIA compliance, please contact admin@enviro-eap.co.za or you may refer to Privacy Policy on our website.

Notices were sent via registered mail and email to owners and occupiers of land adjacent as supplied by Swartland Municipality to the site where the activity is undertaken. The notice requested them to register as Interested and Affective Parties (I&APs) and invited them to provide written comments

together with the above reference number, their name, contact details and an indication of any direct business, financial, personal or other interest which they have in the application to the contact person indicated below within 30 days from the date of this notice. The notice also requested the owner to inform all persons residing on the property.

STEPS TAKEN TO NOTIFY POTENTIALLY INTERESTED AND AFFECTED PARTIES

This section of the report is included in compliance with the Regulations.

Potential I&APs were notified about the project by:

1. Fixing notice boards at the boundary and on route of the site in compliance with the Regulations. All relevant and required information was displayed on the notice board. The notice board contained the following minimum information (Size of Board 89 x 42 cm):
 - how to register as an interested and affected party;
 - the manner in which representations on the application may be made;
 - where further information on the application or activity can be obtained; and
 - the contact details of the person(s) to whom representations may be made.
 - The fact that the public participation process had commenced, that a basic assessment process will be followed, the dates within which they can register or send comments and what the proposed activity constituted, was displayed.
2. Giving written notice to owners and occupiers of land adjacent to the site where the activity is to be undertaken, the municipal councillor of the ward within which the site is located, the local municipality and those organs of state having jurisdiction in respect of any aspect of the project as required by the Regulations.
3. Placing an advertisement in a local newspaper in compliance with the Regulations. Advert was placed in the Swartland Gazette notifying the public of the development and inviting them to register as Interested and Affected Parties within 30 days.
4. Lists of Identified and Registered Interested and Affected Parties
This section of the report is included in compliance with the Regulations. This list includes the potential as well as the registered Interested and Affected Parties. The list of parties who were identified as potential I&APs as per the requirements of the Regulations and the list of parties who requested registration as an I&AP, and who are registered on the I&AP database for the project as required in terms of the Regulations were included. A Comments and Response Report from registered I&AP's will be included.
5. Workshop with Key Role players
No workshops were held.

TABLE 2: LIST OF KEY DEPARTMENTS AND REGISTERED INTERESTED & AFFECTED PARTIES

The pre and draft Basic Assessment Report will be email emailed to the following key Departments.

TABLE 3: COMMENTS AND RESPONSES TABLE – PRE DRAFT BAR

STAKEHOLDER/IAP	DATE	COMMENT	RESPONSE
Department of Environmental Affairs and Development Planning Themba Silinda Directorate: Development Management, Region 1	27 February 2025	<p>ACKNOWLEDGEMENT OF RECEIPT AND COMMENT ON THE NOTICE OF INTENT TO SUBMIT AN APPLICATION FOR BASIC ASSESSMENT FOR THE PROPOSED ESTABLISHMENT OF THE PHASE 2 DARLING HOUSING DEVELOPMENT AND ASSOCIATED INFRASTRUCTURE ON A PORTION OF THE REMAINDER OF ERF NO.551, DARLING.</p> <p>1. The abovementioned document as received by this Directorate via electronic mail correspondence on 17 February 2025, refers.</p> <p>2. This letter serves as an acknowledgement of receipt of the aforementioned document by this Directorate.</p> <p>3. Following a review of the information submitted to this Directorate, the following is noted:</p> <p>3.1 The proposal entails the establishment of the Phase 2 housing development on a portion of the Remainder of Erf No. 551, Darling comprising the following:</p> <p>3.1.1 Approximately 290 Residential 2 erven (single);</p> <p>3.1.2 Approximately 72 Residential 2 erven (walk ups);</p> <p>3.1.3 25 Residential Zone 1 erven (GAP);</p> <p>3.1.4 2 Authority zone erven;</p> <p>3.1.5 1 Community zone 1 (crèche);</p> <p>3.1.6 1 Community zone 1 (school);</p> <p>3.1.7 1 Community zone 2 erf (church) erven);</p> <p>3.1.8 2 Open Space 1 erven; and</p> <p>3.1.9 1 Transport zone 2 erf.</p> <p>3.2 The proposed development footprint will be approximately 12.2 ha in extent.</p> <p>3.3 The property is zoned as undetermined and the site is located outside an urban area.</p> <p>3.4 The proposed site contains indigenous vegetation.</p>	<p>Noted.</p> <p>Noted.</p> <p>Noted.</p> <p>Correct.</p> <p>Correct.</p> <p>Correct.</p> <p>Correct.</p>

		<p>3.5 The proposed development will occur within 32m of a watercourse.</p> <p>4. Applicable Listed Activities:</p> <p>4.1 Based on the information contained in the NOI, the proposed development will trigger the following listed activities in terms of the NEMA EIA Regulations, 2014 (as amended), namely:</p> <p>4.1.1 Activities 9, 12, 24, 27 and 28 of Listing Notice 1 and Activities 4 and 12 of Listing Notice 3 of the NEMA EIA Regulations, 2014 (as amended).</p> <p>4.2 A Basic Assessment process must be followed in order to apply for Environmental Authorisation. Only those activities applied for shall be considered for authorisation. The onus is on the applicant to ensure that all the applicable listed activities are applied for and assessed as part of the Basic Assessment process.</p> <p>5. Screening Tool, Protocols and Specialist Assessments:</p> <p>5.1 This Directorate notes that a Screening Tool Report (dated 18 December 2024) and confirmation of the relevant specialist studies to be conducted has been provided.</p> <p>5.2 The following specialist assessments were identified in the Screening Tool Report (dated 18 December 2024):</p> <p>5.2.1. Landscape/Visual Impact Assessment</p> <p>5.2.2. Animal Species Impact Assessment</p> <p>5.2.3. Aquatic Biodiversity Impact Assessment</p> <p>5.2.4. Archaeological and Cultural Heritage Impact Assessment</p> <p>5.2.5. Palaeontology Impact Assessment</p> <p>5.2.6. Plant Species Impact Assessment</p> <p>5.2.7. Terrestrial Impact Assessment</p> <p>5.2.8. Socio-Economic Impact Assessment</p>	<p>Correct.</p> <p>Noted.</p> <p>Noted.</p> <p>Noted.</p> <p>Correct.</p>
--	--	--	---

		<p>5.3 Although the abovementioned specialist assessments were identified in the Screening Tool Report (dated 18 December 2024), it was motivated that the following studies will not be undertaken for the following reasons:</p> <p>5.3.1 An Agricultural Impact Assessment: The Protocols require that land identified by the screening tool as High or Very High require an Agricultural Impact Assessment to be undertaken. The screening tool report (dated 18 December 2024) Agricultural theme has been assigned a “Medium Sensitivity” rating for the proposed site. Based on the information made available to this Directorate, the proposed site is not used for agricultural purpose and therefore, there is no need for an agricultural impact assessment to be conducted as the proposed development site is surrounded by residential developments, with no agricultural activities occurring in and around the proposed development site. As such the proposed development will have a low impact on the agricultural resources of the surrounding environment. Thus, an Agricultural Impact Assessment will not be conducted. Please note that low significance for the agricultural theme requires a Compliance Statement. Therefore should no impacts be anticipated, the disputed significance rating should be indicated as very low or negligible. An updated SSVR should be included in the pre-application BAR.</p> <p>5.3.2 An Animal Species Impact Assessment: According to the Screening Tool Report, the Animal Species Theme received a “Medium Sensitivity” rating, therefore an Animal Species Compliance Statement is required. Based on findings, is the specialist confirmed that the proposed site is located in close proximity to existing residential area. No species of conservation concern or listed in the screen tool</p>	<p>Noted. Correct.</p> <p>Noted. Agree. Site Sensitivity Verification report was updated to indicate very low sensitivity and therefore no need for Agricultural compliance statement.</p> <p>Correct.</p>
--	--	---	--

	<p>report were recorded during the site inspection. It is therefore concluded that the proposed site does not support significant animal species. Therefore, as the proposed project will have a low impact on the animal species resources of the surrounding environment. An animal Species Compliance Statement will be compiled for the proposed development.</p> <p>5.3.3 A Civil Aviation Impact Assessment: According to the screening tool report dated 18 December 2024, the Civil Aviation Theme received a “High Sensitivity” rating. However, based on the Site Sensitivity Verification Report (“SSVR”) dated December 2024 and compiled by EnviroEAP (Pty) Ltd, the proposed development is not expected to have any significant impacts on the civil aviation resources of the surrounding environment, the impacts are expected to be low.</p> <p>Thus, a Civil Aviation Impact Assessment is thus not required. This Directorate concurs with the EAP’s motivation in this regard.</p> <p>5.3.4 A Defence Impact Assessment: According to the screening tool report dated 18 December 2024, the Defence Theme received a “Low sensitivity” rating. According to the SSVR dated December 2024, the site is not in close proximity defence related structures or zones, therefore it received a “low” sensitivity rating. It is expected that the proposed residential development will not have any negative impacts on the defence features in close proximity to the site, therefore, it is the EAP’s professional opinion that a Defence Impact Assessment is not required. This Directorate concurs with the EAP’s motivation in this regard.</p> <p>5.3.5 A Palaeontological Impact Assessment: According to the screening tool report, the Palaeontological Theme received a “Medium sensitivity” rating. It is expected</p>	<p>Correct. Compliance statement included in per-application draft BAR.</p> <p>Correct.</p> <p>Noted.</p> <p>Correct.</p> <p>Noted.</p> <p>Noted. A Notice of Intent for this application was submitted to HWC. HWC comment that since there is</p>
--	--	---

	<p>that no palaeontological resources will be impacted by the proposed residential development. However, a Notice of Intent to Develop (“NID”) will be submitted to Heritage Western Cape (“HWC”) for confirmation. HWC’s comment will confirm whether or not this specialist assessment is required.</p> <p>5.3.6 An Archaeological and Cultural Heritage Impact Assessment: According to the screening tool report, the Archaeological and Cultural Heritage Theme a “Very High Sensitivity” rating, therefore, an Archaeological and Cultural Heritage Impact Assessment is required. A NID will be submitted to HWC for confirmation. HWC’s comment will confirm whether or not this specialist assessment is required.</p> <p>5.3.7 A Plant Species Impact Assessment: According to the Screening Tool Report, the Plant Species Theme received a “Medium Sensitivity” rating, therefore a Plant Species Compliance Statement is required. Based on findings, it is confirmed that the proposed site is located in close proximity to existing residential area. No species of conservation concern or listed in the screen tool report were recorded during the site inspection. It is therefore concluded that the proposed site does not support significant plant species. A Plant Species Compliance Statement will be compiled for the proposed development.</p> <p>5.4 The following specialist studies will be conducted:</p> <ul style="list-style-type: none"> • An Aquatic Biodiversity Impact Assessment;. • Plant Species Compliance Statement; • Animal Species Compliance Statement; • Terrestrial Biodiversity Assessment and • An NID will be submitted to the HWC related to the Archaeological and Cultural Heritage and Palaeontological themes. 	<p>no reason to believe that the proposed development will impact on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.</p> <p>Noted. HWC comment that since there is no reason to believe that the proposed development will impact on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.</p> <p>Correct.</p> <p>Noted. Compliance statement included in per-application draft BAR.</p> <p>Correct. Included as Appendixes in pre-application draft BAR. Take note that the specialist after site assessment conducted compliance statement.</p>
--	--	---

	<p>6. Please note the following advice pertaining to the Notice of Intent:</p> <p>6.1 Consultation with State Departments/Organs of State: In terms of Section 24O of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (“NEMA”) the competent authority must consult with every State Department that administers a law relating to a matter affecting the environment when the competent authority considers an application for an environmental authorisation.</p> <p>7. This Directorate notes that you do not intend to apply for exemption from any of the requirements of the Public Participation Process as stipulated by Regulation 41, from any other provisions contained in the EIA Regulations, 2014 (as amended) or the NEMA. Please note that should you fail to meet a requirement of the EIA Regulations, 2014 (as amended) or the NEMA and if no exemption from that provision was applied for, your application for environmental authorisation may be refused.</p> <p>8. Be advised that in terms of the EIA Regulations, 2014 (as amended) and the NEMA, the investigation of alternatives is mandatory. All alternatives identified must therefore be investigated to determine if they are feasible and reasonable. In this regard it must be noted that this Directorate may grant authorisation for an alternative as if it has been applied for or may grant authorisation in respect of all or part of the activity applied for as specified in Regulation 20 of the EIA Regulations, 2014 (as amended). Alternatives are not limited to activity alternatives, but include layout alternatives, design, activity, operational and technology alternatives.</p> <p>9. You are hereby reminded that it is mandatory to investigate and assess the option of not proceeding with the proposed activity (i.e., the “no-go” option) in addition to other</p>	<p>Noted. Please refer to this report for proof.</p> <p>Noted. Correct.</p> <p>Noted. Please refer to pre-application draft BAR for proof on alternatives.</p> <p>Noted.</p>
--	--	--

		<p>alternatives identified. Every EIA process must therefore identify and investigate alternatives, with feasible and reasonable alternatives to be comparatively assessed. If, however, after having identified and investigated alternatives, no feasible and reasonable alternatives were found, no comparative assessment of alternatives, beyond the comparative assessment of the preferred alternative and the option of not proceeding, is required during the assessment. What would, however, be required in this instance is proof that the investigation was undertaken and motivation indicating that no reasonable or feasible alternatives other than the preferred option and the 'no-go' option exist.</p> <p>10. Public Participation</p> <p>10.1 It is noted that the public participation will be undertaken in accordance with the requirements of Regulation 41 of the EIA Regulations, 2014 (as amended).</p> <p>10.2 This Directorate herewith provides the following comments:</p> <p>10.2.1 Your attention is drawn to Circular 0027 of 2021 regarding the electronic administration of EIA applications. The Directorate: Development Management (Region 1 and 2) will continue with the electronic submission of correspondence and has for this reason established a dedicated e-mail address for the submission of all correspondence to the Directorates. For the Cape Town office, the e-mail address is DEADPEIAAdmin@westerncape.gov.za This electronic means of working is effective from 01 February 2022 and all general EIA queries, correspondence, applications, non-applications and reports must be e-mailed to the aforementioned email address.</p>	<p>Noted. Please refer to this report for proof.</p>
--	--	---	--

		<p>10.2.2 Please ensure that where electronic copies cannot be accessed by I&APs, alternative access to copies of the BAR are made available.</p> <p>10.2.3 Please be reminded that the Public Participation Process must fulfil the requirements outlined in Chapter 6 of the EIA Regulations, 2014 (as amended), and must take into account any applicable guidelines published in terms of Section 24J of the NEMA, this Department’s Circular EADP 0028/2014 on the “One Environmental Management System” and the EIA Regulations, 2014 (as amended), as well as any other guidance provided by this Department.</p> <p>10.3 E-mail notification to I&APs is strongly supported. However, other means of notification for those I&APS will be required where no e-mail addresses are available, or where the likelihood of success of this electronic correspondence is expected to be low.</p> <p>10.4 Where I&APs are unable to access electronic copies of the BAR, a hard copy of the BAR must be made available. Alternatively, the EAP will be required to engage with I&APS, with respect to alternative methods of accessing electronic copies of the BAR.</p> <p>10.5 In terms of good environmental practice, you are encouraged to engage with State Departments and other Organs of State in the pre-application phase or early in the EIA process to solicit their inputs on any of their requirements to be addressed in the EIA process. Please note that this does not replace the requirement of making the BAR available to State Departments as stipulated above.</p> <p>11. In accordance with Section 24N of NEMA and Regulation 19 the Department hereby requires the submission of an Environmental Management Programme (“EMPr”). The contents of such an EMPr must meet the requirements</p>	<p>Noted.</p> <p>Noted.</p> <p>Noted.</p> <p>Noted.</p> <p>Noted.</p> <p>Noted. Please refer to draft EMPr included as appendix in pre-application draft BAR for more detail and proof.</p>
--	--	---	---

	<p>outlined in Section 24N of the NEMA (as amended) and Appendix 4 of the EIA Regulations, 2014 (as amended). The EMPr must address the potential environmental impacts of the activity throughout the project life cycle including an assessment of the effectiveness of monitoring and management arrangements after implementation (auditing). The EMPr must be submitted together with the BAR. The Directorate would like to advise that in compiling the EMPr the Directorate's Guideline for Environmental Management Plans (June 2005), available on the Directorate's website must be taken into account.</p> <p>12. Climate Change: The BAR must report on the potential impacts on climate change.</p> <p>One of the objectives of the Western Cape Provincial Spatial Development Framework published by this Directorate is to minimise the consumption of scarce environmental resources such as water, fuel, building materials, mineral resources, electricity, and land. To this effect and as part of the efforts to reduce the effects of climate change, you must, as part of the EIA process, identify energy efficient technologies that could be implemented for the proposed development.</p> <p>13. You are referred to Appendix 1 of the EIA Regulations, 2014 (as amended) for the requirements with respect to the 'Content of basic assessment reports'. You are advised that when undertaking the EIA process, you must take into account the Directorate's Circular EADP 0028/2014 on the "One Environmental Management System" and the EIA Regulations, 2014 (as amended) as well as any other guidance provided by the Directorate.</p> <p>14. In terms of the EIA Regulations, 2014 (as amended), when considering an application, the Directorate must take into</p>	<p>Noted. Please refer to pre-application draft BAR for more detail on climate change.</p> <p>Noted. Please refer to pre-application draft BAR for more detail on BAR and content.</p>
--	---	--

		<p>account a number of specific considerations including, inter alia, the need for and desirability of any proposed development. As such, the need for and desirability of the proposed activity must be considered and reported on in the BAR. The BAR must reflect how the strategic context of the site in relation to the broader surrounding area, has been considered in addressing need and desirability.</p> <p>15. In addition to the above, you must clearly show how the proposed development complies with the principles contained in Section 2 of the NEMA and must also show how the proposed development meets the requirements of sustainable development.</p> <p>16. It is prohibited in terms of Section 24F of the NEMA for a person to commence with a listed activity unless the competent authority has granted an environmental authorisation for the undertaking of the activity. A person convicted of an offence in terms of the above is liable for a fine not exceeding R10 million or to imprisonment for a period not exceeding 10 years, or to both such fine and imprisonment.</p> <p>17. This Directorate awaits the submission of the pre-application BAR and/or the application form for environmental authorisation.</p> <p>18. Kindly quote the above-mentioned reference number in any future correspondence in respect of the pre-application.</p> <p>19. Please note that the pre-application consultation is an advisory process and does not pre-empt the outcome of any future application which may be submitted to this Directorate. No information provided, views expressed and/or comments made by officials during the pre-application consultation should in any way be seen as an indication or confirmation:</p>	<p>Noted. Please refer to draft BAR and appendix, motivation report for more detail on need and desirability.</p> <p>Noted. Please refer to draft BAR for more detail on Section 2 of NEMA.</p> <p>Noted.</p> <p>Noted.</p> <p>Noted.</p> <p>Noted.</p>
--	--	---	---

		<ul style="list-style-type: none">•that additional information or documents will not be requested; or•of the outcome of the application. <p>This Directorate reserves the right to revise its initial comments and request further information based on any information received.</p> <p>Yours faithfully</p>	Noted.

E-mail: swartlandmun@swartland.org.za

Dear Madam

ACKNOWLEDGEMENT OF RECEIPT AND COMMENT ON THE NOTICE OF INTENT TO SUBMIT AN APPLICATION FOR BASIC ASSESSMENT FOR THE PROPOSED ESTABLISHMENT OF THE PHASE 2 DARLING HOUSING DEVELOPMENT AND ASSOCIATED INFRASTRUCTURE ON A PORTION OF THE REMAINDER OF ERF NO.551, DARLING.

1. The abovementioned document as received by this Directorate via electronic mail correspondence on 17 February 2025, refers.
2. This letter serves as an acknowledgement of receipt of the aforementioned document by this Directorate.
3. Following a review of the information submitted to this Directorate, the following is noted:
 - 3.1 The proposal entails the establishment of the Phase 2 housing development on a portion of the Remainder of Erf No. 551, Darling comprising the following:
 - 3.1.1 Approximately 290 Residential 2 erven (single);
 - 3.1.2 Approximately 72 Residential 2 erven (walk ups);
 - 3.1.3 25 Residential Zone 1 erven (GAP);
 - 3.1.4 2 Authority zone erven;
 - 3.1.5 1 Community zone 1 (crèche);
 - 3.1.6 1 Community zone 1 (school);
 - 3.1.7 1 Community zone 2 erf (church) erven;
 - 3.1.8 2 Open Space 1 erven; and
 - 3.1.9 1 Transport zone 2 erf.
 - 3.2 The proposed development footprint will be approximately 12.2 ha in extent.
 - 3.3 The property is zoned as undetermined and the site is located outside an urban area.
 - 3.4 The proposed site contains indigenous vegetation.
 - 3.5 The proposed development will occur within 32m of a watercourse.
4. Applicable Listed Activities:
 - 4.1 Based on the information contained in the NOI, the proposed development **will trigger** the following listed activities in terms of the NEMA EIA Regulations, 2014 (as amended), namely:
 - 4.1.1 Activities 9, 12, 24, 27 and 28 of Listing Notice 1 and Activities 4 and 12 of Listing Notice 3 of the NEMA EIA Regulations, 2014 (as amended).

- 4.2 A Basic Assessment process must be followed in order to apply for Environmental Authorisation. Only those activities applied for shall be considered for authorisation. The onus is on the applicant to ensure that all the applicable listed activities are applied for and assessed as part of the Basic Assessment process.
5. Screening Tool, Protocols and Specialist Assessments:
- 5.1 This Directorate notes that a Screening Tool Report (dated 18 December 2024) and confirmation of the relevant specialist studies to be conducted has been provided.
- 5.2 The following specialist assessments were identified in the Screening Tool Report (dated 18 December 2024):
- 5.2.1. Landscape/Visual Impact Assessment
 - 5.2.2. Animal Species Impact Assessment
 - 5.2.3. Aquatic Biodiversity Impact Assessment
 - 5.2.4. Archaeological and Cultural Heritage Impact Assessment
 - 5.2.5. Palaeontology Impact Assessment
 - 5.2.6. Plant Species Impact Assessment
 - 5.2.7. Terrestrial Impact Assessment
 - 5.2.8. Socio-Economic Impact Assessment
- 5.3 Although the abovementioned specialist assessments were identified in the Screening Tool Report (dated 18 December 2024), it was motivated that the following studies will not be undertaken for the following reasons:
- 5.3.1 An Agricultural Impact Assessment:
The Protocols require that land identified by the screening tool as High or Very High require an Agricultural Impact Assessment to be undertaken. The screening tool report (dated 18 December 2024) Agricultural theme has been assigned a "Medium Sensitivity" rating for the proposed site. Based on the information made available to this Directorate, the proposed site is not used for agricultural purpose and therefore, there is no need for an agricultural impact assessment to be conducted as the proposed development site is surrounded by residential developments, with no agricultural activities occurring in and around the proposed development site. As such the proposed development will have a low impact on the agricultural resources of the surrounding environment. Thus, an Agricultural Impact Assessment will not be conducted. Please note that low significance for the agricultural theme requires a Compliance Statement. Therefore should no impacts be anticipated, the disputed significance rating should be indicated as very low or negligible. An updated SSVR should be included in the pre-application BAR.
- 5.3.2 An Animal Species Impact Assessment:
According to the Screening Tool Report, the Animal Species Theme received a "Medium Sensitivity" rating, therefore an Animal Species Compliance Statement is required. Based on findings, is the specialist confirmed that the proposed site is located in close proximity to existing residential area. No species of conservation concern or listed in the screen tool report were recorded during the site inspection. It is therefore concluded that the proposed site does not support significant animal species. Therefore, as the proposed project will have a low impact on the animal species resources of the surrounding environment. An animal Species Compliance Statement will be compiled for the proposed development.
- 5.3.3 A Civil Aviation Impact Assessment:
According to the screening tool report dated 18 December 2024, the Civil Aviation Theme received a "High Sensitivity" rating. However, based on the Site Sensitivity Verification Report ("SSVR") dated December 2024 and compiled by EnviroEAP (Pty) Ltd, the proposed development is not expected to have any significant impacts on the civil aviation resources of the surrounding environment, the impacts are expected to be low.

Thus, a Civil Aviation Impact Assessment is thus not required. This Directorate concurs with the EAP's motivation in this regard.

5.3.4 A Defence Impact Assessment:

According to the screening tool report dated 18 December 2024, the Defence Theme received a "Low sensitivity" rating. According to the SSVR dated December 2024, the site is not in close proximity defence related structures or zones, therefore it received a "low" sensitivity rating. It is expected that the proposed residential development will not have any negative impacts on the defence features in close proximity to the site, therefore, it is the EAP's professional opinion that a Defence Impact Assessment is not required. This Directorate concurs with the EAP's motivation in this regard.

5.3.5 A Palaeontological Impact Assessment:

According to the screening tool report, the Palaeontological Theme received a "Medium sensitivity" rating. It is expected that no palaeontological resources will be impacted by the proposed residential development. However, a Notice of Intent to Develop ("NID") will be submitted to Heritage Western Cape ("HWC") for confirmation. HWC's comment will confirm whether or not this specialist assessment is required.

5.3.6 An Archaeological and Cultural Heritage Impact Assessment:

According to the screening tool report, the Archaeological and Cultural Heritage Theme a "Very High Sensitivity" rating, therefore, an Archaeological and Cultural Heritage Impact Assessment is required. A NID will be submitted to HWC for confirmation. HWC's comment will confirm whether or not this specialist assessment is required.

5.3.7 A Plant Species Impact Assessment:

According to the Screening Tool Report, the Plant Species Theme received a "Medium Sensitivity" rating, therefore a Plant Species Compliance Statement is required. Based on findings, it is confirmed that the proposed site is located in close proximity to existing residential area. No species of conservation concern or listed in the screen tool report were recorded during the site inspection. It is therefore concluded that the proposed site does not support significant plant species. A Plant Species Compliance Statement will be compiled for the proposed development.

5.4 The following specialist studies will be conducted:

- An Aquatic Biodiversity Impact Assessment;
- Plant Species Compliance Statement;
- Animal Species Compliance Statement;
- Terrestrial Biodiversity Assessment and
- An NID will be submitted to the HWC related to the Archaeological and Cultural Heritage and Palaeontological themes.

6. Please note the following advice pertaining to the Notice of Intent:

6.1 Consultation with State Departments/Organs of State:

In terms of Section 24O of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA") the competent authority must consult with every State Department that administers a law relating to a matter affecting the environment when the competent authority considers an application for an environmental authorisation.

7. This Directorate notes that you do not intend to apply for exemption from any of the requirements of the Public Participation Process as stipulated by Regulation 41, from any other provisions contained in the EIA Regulations, 2014 (as amended) or the NEMA. Please note that should you fail to meet a requirement of the EIA Regulations, 2014 (as amended) or the NEMA and if no exemption from that provision was applied for, your application for environmental authorisation may be refused.
8. Be advised that in terms of the EIA Regulations, 2014 (as amended) and the NEMA, the investigation of alternatives is mandatory. All alternatives identified must therefore be investigated to determine

if they are feasible and reasonable. In this regard it must be noted that this Directorate may grant authorisation for an alternative as if it has been applied for or may grant authorisation in respect of all or part of the activity applied for as specified in Regulation 20 of the EIA Regulations, 2014 (as amended). Alternatives are not limited to activity alternatives, but include layout alternatives, design, activity, operational and technology alternatives.

9. You are hereby reminded that it is mandatory to investigate and assess the option of not proceeding with the proposed activity (i.e., the "no-go" option) in addition to other alternatives identified. Every EIA process must therefore identify and investigate alternatives, with feasible and reasonable alternatives to be comparatively assessed. If, however, after having identified and investigated alternatives, no feasible and reasonable alternatives were found, no comparative assessment of alternatives, beyond the comparative assessment of the preferred alternative and the option of not proceeding, is required during the assessment. What would, however, be required in this instance is proof that the investigation was undertaken and motivation indicating that no reasonable or feasible alternatives other than the preferred option and the 'no-go' option exist.
10. Public Participation
 - 10.1 It is noted that the public participation will be undertaken in accordance with the requirements of Regulation 41 of the EIA Regulations, 2014 (as amended).
 - 10.2 This Directorate herewith provides the following comments:
 - 10.2.1 Your attention is drawn to Circular 0027 of 2021 regarding the electronic administration of EIA applications. The Directorate: Development Management (Region 1 and 2) will continue with the electronic submission of correspondence and has for this reason established a dedicated e-mail address for the submission of all correspondence to the Directorates. For the Cape Town office, the e-mail address is DEADPEIAAdmin@westerncape.gov.za

This electronic means of working is effective from 01 February 2022 and all general EIA queries, correspondence, applications, non-applications and reports must be e-mailed to the aforementioned email address.
 - 10.2.2 Please ensure that where electronic copies cannot be accessed by I&APs, alternative access to copies of the BAR are made available.
 - 10.2.3 Please be reminded that the Public Participation Process must fulfil the requirements outlined in Chapter 6 of the EIA Regulations, 2014 (as amended), and must take into account any applicable guidelines published in terms of Section 24J of the NEMA, this Department's Circular EADP 0028/2014 on the "One Environmental Management System" and the EIA Regulations, 2014 (as amended), as well as any other guidance provided by this Department.
 - 10.3 E-mail notification to I&APs is strongly supported. However, other means of notification for those I&APs will be required where no e-mail addresses are available, or where the likelihood of success of this electronic correspondence is expected to be low.
 - 10.4 Where I&APs are unable to access electronic copies of the BAR, a hard copy of the BAR must be made available. Alternatively, the EAP will be required to engage with I&APs, with respect to alternative methods of accessing electronic copies of the BAR.
 - 10.5 In terms of good environmental practice, you are encouraged to engage with State Departments and other Organs of State in the pre-application phase or early in the EIA process to solicit their inputs on any of their requirements to be addressed in the EIA process. Please note that this does not replace the requirement of making the BAR available to State Departments as stipulated above.
11. In accordance with Section 24N of NEMA and Regulation 19 the Department hereby requires the submission of an Environmental Management Programme ("EMPr"). The contents of such an EMPr must meet the requirements outlined in Section 24N of the NEMA (as amended) and Appendix 4 of the EIA Regulations, 2014 (as amended). The EMPr must address the potential environmental

impacts of the activity throughout the project life cycle including an assessment of the effectiveness of monitoring and management arrangements after implementation (auditing). The EMPr must be submitted together with the BAR. The Directorate would like to advise that in compiling the EMPr the Directorate's Guideline for Environmental Management Plans (June 2005), available on the Directorate's website must be taken into account.

12. Climate Change:

The BAR must report on the potential impacts on climate change.

One of the objectives of the Western Cape Provincial Spatial Development Framework published by this Directorate is to minimise the consumption of scarce environmental resources such as water, fuel, building materials, mineral resources, electricity, and land. To this effect and as part of the efforts to reduce the effects of climate change, you must, as part of the EIA process, identify energy efficient technologies that could be implemented for the proposed development.

13. You are referred to Appendix 1 of the EIA Regulations, 2014 (as amended) for the requirements with respect to the '*Content of basic assessment reports*'. You are advised that when undertaking the EIA process, you must take into account the Directorate's Circular EADP 0028/2014 on the "*One Environmental Management System*" and the EIA Regulations, 2014 (as amended) as well as any other guidance provided by the Directorate.
14. In terms of the EIA Regulations, 2014 (as amended), when considering an application, the Directorate must take into account a number of specific considerations including, *inter alia*, the need for and desirability of any proposed development. As such, the need for and desirability of the proposed activity must be considered and reported on in the BAR. The BAR must reflect how the strategic context of the site in relation to the broader surrounding area, has been considered in addressing need and desirability.
15. In addition to the above, you must clearly show how the proposed development complies with the principles contained in Section 2 of the NEMA and must also show how the proposed development meets the requirements of sustainable development.
16. It is prohibited in terms of Section 24F of the NEMA for a person to commence with a listed activity unless the competent authority has granted an environmental authorisation for the undertaking of the activity. A person convicted of an offence in terms of the above is liable for a fine not exceeding R10 million or to imprisonment for a period not exceeding 10 years, or to both such fine and imprisonment.
17. This Directorate awaits the submission of the pre-application BAR and/or the application form for environmental authorisation.
18. Kindly quote the above-mentioned reference number in any future correspondence in respect of the pre-application.
19. Please note that the pre-application consultation is an advisory process and does not pre-empt the outcome of any future application which may be submitted to this Directorate.

No information provided, views expressed and/or comments made by officials during the pre-application consultation should in any way be seen as an indication or confirmation:

- that additional information or documents will not be requested; or
- of the outcome of the application.

This Directorate reserves the right to revise its initial comments and request further information based on any information received.

Yours faithfully
