Cape Bentonite Social Housing Project

The project involves construction of 6 social housing units to accommodate destitute families who are living in a dilapidated building in Diepkloof. The project is being implemented in partnership with Hessequa Local Municipality.

4

The first phase of the project was about providing temporary shelter for the 5 families so that the old building can be demolished to create space for the new social housing (RDP).

Hessequa LM is providing land, electrical and water services.

The next phase is the development of the building drawings and appointment of a contractor.

Temporary wendy houses completed

The local municipality will connect electricity before the families can move in.

From the current living conditions to temporary structures below.

The end goal is to build 5 units like this one.

6. Conclusion

7

- SAHRA demolishing permit was received.
- The old dilapidated buildings were demolished.
- The site was cleared of the asbestos material.
- A local draughtsman has been appointed to develop building drawings in 2025.
